

Proposed approach for work during this meeting

- Group work to review highlighted questions in the document – each group reviews 2-3 sections and agrees on how to address questions (change or retain text proposals in Word doc)
- Report to plenary on key points; collect feedback from all participants
- Any points of disagreement discussed and resolved in plenary
- Results compiled in electronic form; final editing can take place after meeting with support from UN-REDD team

Materials for group work

- 1) Group work task sheet
 - 2) Copy of the draft interpretation; questions to be addressed are in comment boxes
- Colour-coding of questions:
 - **Blue highlight:** question about including a topic in document
 - **Yellow highlight:** question about a suggested change (text proposed)
 - **Pink text:** request to add more detail or decide on a deletion
 - **Green text:** request to check a change that has been made
 - Start with blue (likely to require most discussion), end with green (likely most straightforward)
