

# **UN-REDD Post-2020 Ambition and Vision: Update and Discussion**

**Mario Boccucci**

4<sup>th</sup> Executive Board Meeting  
25 June 2020 | Virtual

# Outline

- Context
- Strategic Framework
- Next steps
- Discussion

# Context

- Progress and results to date
- Covid-19 & 2021 transition year
- Process to develop the future UN-REDD
- Resource mobilisation

# Progress and Results to Date

## Cumulative highlights

- 28 countries adopted NS/APs
- 45 countries developed NFMS
- 29 countries supported on FREs
- 36 countries supported with their approaches to meeting safeguards requirements

# Progress and Results to Date

## 2019 highlights

- NS/AP: Bangladesh, Honduras, Mongolia
- FRELs: Argentina, Bangladesh, Nigeria, Solomon Islands + Colombia, Ecuador, Honduras, Kenya, Mexico (early 2020)
- SIS and summaries of information doubled
- NDC review process
- Gender : 14 countries; Myanmar doubled
- LCIP Platform: inception process with UNFCCC
- Shifting to implementation: Chile, Colombia, Congo, Indonesia, Myanmar

# COVID-19

- 2021 transition year
- Assessing impact on delivery of 2020 workplan
- Launch scoping process for 2021
- Deepen resource mobilisation efforts

# Process to Develop the Future UN-REDD

- Oct 2018: EB2 brainstorming session
- June 2019: EB3 discussion
- Dec 2019: EB informal discussion
- June 2020: \*Now!\* EB4 virtual discussion
- 2021: Transition year

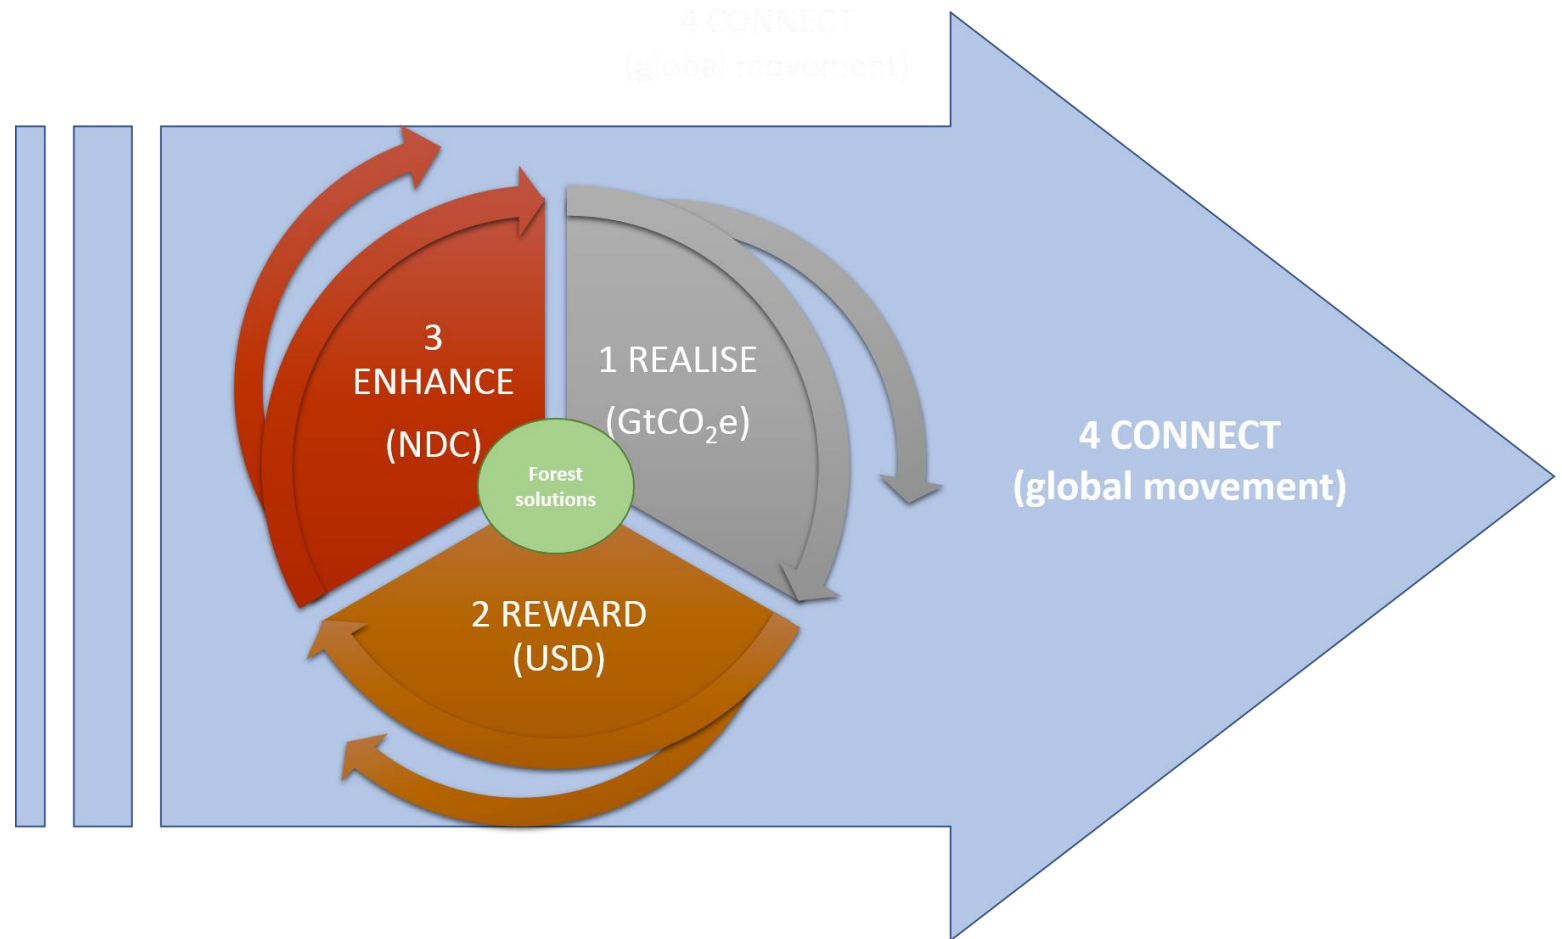

# UN-REDD post-2020 Strategic Framework

## Outcomes:

1. Forest Solutions Realised
2. Forest Solutions Rewarded
3. Forest Solutions Enhanced
4. Connecting Actors & Knowledge for Forest Solutions

Illustrative concrete examples of activities

# RESULTS FRAMEWORK 2021-2025

## OUTCOME 1 – FOREST SOLUTIONS REALISED

Forest-based GHG emission reductions and enhanced removals, of increasing quality, achieved at a level of 1 GtCO<sub>2</sub>e

1.1 REDD+ investment plans/programmes

1.2 Forest landscape restoration

1.3 Deforestation-free commodity supply chains

1.4 Monitoring systems for high-quality and accurate emission data

1.5 Safeguards addressed and reported

## OUTCOME 2 – FOREST SOLUTIONS REWARDED

USD 5bn mobilised for REDD+ from RBP schemes, carbon markets and other transactions under Art. 6 of the Paris Agreement

2.1 RBP for REDD+ results

2.2 Market transactions

2.3 Private-sector forest carbon investments

## OUTCOME 3 – FOREST SOLUTIONS ENHANCED

More than 15 countries enhance significantly the forest component of their NDCs in the 2020-2025 cycle

3.1 NDCs mitigation actions in the forest and land-use sectors

## OUTCOME 4 – CONNECTING ACTORS & KNOWLEDGE FOR FOREST SOLUTIONS

A global, transformative NBS movement accelerates climate action

4.1 Knowledge on how to scale up REDD+ implementation

4.2 Collective political and societal support to NBS

4.3 Digital cooperation and frontier technologies

# Resource Mobilisation

- Positive signals for forest agenda
- Engagement with current and new donors
- Entry points:
  - COP 26 in Glasgow in November
  - EU MFF 2021-27: EUR 80b for external actions
  - UK: ICF doubled for next 5 year to GBP 11.3b
- RM strategy in next 18 months

# Next Steps

- Updated Strategic framework - end of July
- Circulate 2019 AR
- 2021 Workplan and Budget - as soon as funds confirmed
- Resource mobilisation strategy – end of July
- 2021 WP scoping exercise – next 6 months
- Board meeting – by end of 2020
- 2021 transition year, continuing co-design and roll out of next phase

# Discussion

- Is the post 2020 Strategic Framing clear and compelling? How can we improve it?
- Is the value of the Programme well captured by outcomes and outputs?
- Is there any other need that you anticipate UNREDD should cater for in the next phase?
- Do you have any suggestion on how to maximise resource mobilisation?
- Any other feedback and guidance you would like to share?
