United Nations

Empowered lives.
Resilient nations.

UN
environment

Framing questions

1. CONTEXT going forward
2. WHY a UN-REDD in the future?
3. WHAT should a future UN-REDD do?

1. CONTEXT going forward

- In the context of the Paris Agreement and SDGs, where is the climate/forest agenda headed after 2020?
- What are the main challenges and bottlenecks for enhanced climate ambition through REDD+ in 2020 and beyond?

2. WHY a UN-REDD in the future?

- What role for the UN system in the forest/climate space beyond 2020?
- What are the external opportunities and challenges that should shape a future UN Partnership on forest/climate?

3. WHAT should a future UN-REDD do?

- How can we catalyse action in support of forests as a key climate solution?
- How can we complement what other actors are doing?
- What should we do more of? And less of?

Thank you! Merci ! ¡Gracias!
