ATENEO SCHOOL OF GOVERNMENT
The Graduate School of Leadership and Public Service

Stage One: Stocktaking

Gathering data on corruption risks in relation to REDD-Plus in the Philippines, through interviews, workshops and consultations.

- Desk Review
- Key Informant Interviews
- Focus Group Discussions
- Workshops

Viewed from the lens of the PNRPS.

Names/identities of informants will not be disclosed unless given permission to do so.

Stage Two: Policy and Institutional Analysis

Data gathered from stocktaking activities shall be analyzed and clustered based on underlying trends and policy or institutional implications.

- Expert group discussions and consultations
- Completion and dissemination of first report, to elicit feedback and comments from stakeholders
  - **Target date:** November 15
  - **Due date (feedback, etc.):** November 29
- Evaluation of methodology

Stage Three: Corruption Risk Analysis

Based on results of step 2, the tool applied will be adjusted accordingly, resulting in a crystallized and nationally-owned corruption risk assessment tool.

- Validation of the tool through workshops in early 2013
- Use the tool to establish set criteria for the determination of a prioritized list of corruption risks

Stage Four: Recommendations

Drafting of the final report incorporating the following:

- workshop results and validated tool
- prioritized list of corruption risks
- proposed budget
- proposed measures
- identified responsibilities for implementation
- lessons that may be applicable to other countries

Target Release Date: February 28, 2013
