REDD+ in a Green Economy: Indonesia Perspective

Global Symposium: REDD+ in a Green Economy

19 June 2013

**...approaching REDD+ as
an ends and a catalyst...**

**... simultaneously support Indonesia's
development agenda: pro-growth,
pro-poor, pro-jobs, and pro-
environment**

...it's about supporting greater social equity, environmental and economic sustainability

SATGAS PEMBENTUKAN KELEMBAGAAN REDD+

...it is "Beyond Carbon, More Than Just Forests"

SATGAS PEMBENTUKAN KELEMBAGAAN REDD+

Indonesian REDD+ Strategy (www.satgasreddplus.org)

1

Institutions and processes

Setup of institutions and systems that are crucial to the success of REDD+ as well as capability building in existing ministries and agencies

2

Legal and regulatory framework

Review and revision of regulations and policies

3

Strategic programs

Strategic activities that lead to the development and the realization of REDD+ programs and projects

4

Paradigm shift

Awareness building and professional as well as technical assistance to communities, organizations, and other entities

5

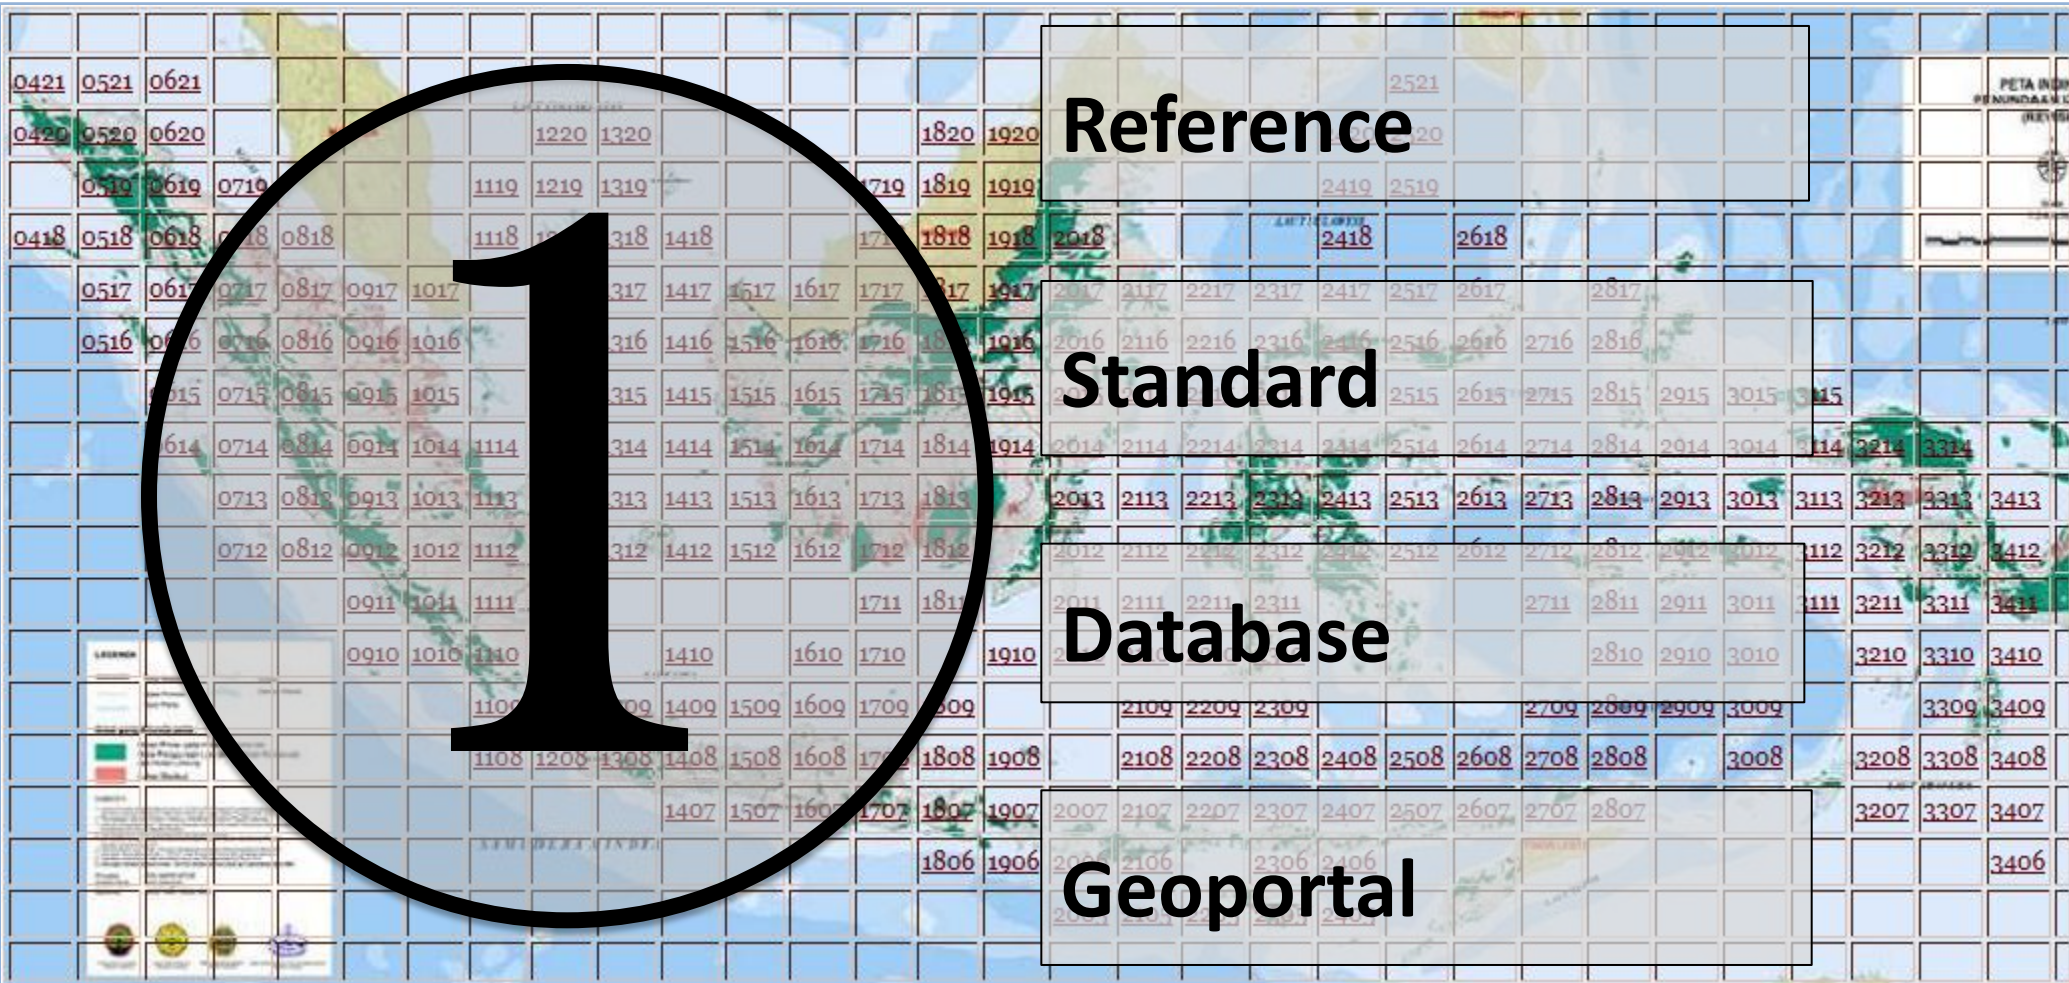

Stakeholder engagement

Interaction with key groups (e.g., donor management, multi-stakeholder approach, benefit sharing mechanism, safeguard oversight, communications)

Different maps of reference

Example: Maps of primary forests in Papua (2009)

First time in history:
public access for digital map of primary forest and peat land

A large crowd of people, mostly men in business attire, are gathered in a conference room. Some are looking towards the camera, while others are engaged in conversation or looking down. A semi-transparent white box is overlaid in the center of the image, containing the text 'REDD+ and Green Economy: DILUTION or COMPLEMENTING?'.

**REDD+ and Green Economy:
DILUTION or COMPLEMENTING?**

Critical Mass for Partnerships
