*Location: Solar Room, Ministry of Environment , Bonn*

**UN-REDD**  
PROGRAMME

# UN-REDD Programme: Purpose

- To assist forested developing countries and the international community gain experience with REDD and thereby contribute to the UNFCCC post-2012 process

- To assess how REDD payments can create the incentives to ensure *actual, lasting, achievable, reliable* and *measurable* emission reductions, while benefiting people and maintaining other ecosystem services forests provide.

# Country & International Actions

- Assist developing countries with capacity development, governance, and technical needs for effective participation in REDD

- Support dialogue and build consensus for agreed methodologies for REDD on:
  - Measurement, Reporting, Verification (MRV)
  - Stakeholder Engagement
  - Multiple Benefits (livelihoods & biodiversity)
  - Benefit Sharing
  - Payment Mechanisms

# Pilot Countries

## **Africa**

Democratic Republic of the Congo,  
Tanzania, Zambia

## **Asia & Pacific**

Indonesia, Papua New Guinea, Vietnam

## **Latin America & Caribbean**

Bolivia, Panama, Paraguay
