

Coalition for Rainforest Nations

## Interim REDD+ Partnership

**Secretariat services**

July 2010

## REDD+ Partnership document (1)

We are to draw on the knowledge and expertise of The Facility Management Team of the Forest Carbon Partnership Facility and the UN REDD Programme Team for the provision of secretariat services for the partnership, under oversight of the co-chairs on behalf of the partner countries. Their tasks should include designing and maintaining the voluntary REDD+ coordination database, organizing partnership meetings, and providing on request from the Partners related analyses, reports and papers, providing logistical support. These services should be independent of the normal functioning of the FCPF and UNREDD programme and of their respective organizations. Additional resources are to be provided to them for this purpose. Specific tasks could also be undertaken by particular countries and other organizations if agreed by the Partnership.

## REDD+ Partnership document (2)

The Facility Management Team of the Forest Carbon Partnership Facility and the UN REDD Programme Team are jointly requested to expeditiously propose a design for the database, in collaboration with Partner countries and other stakeholders, for deliberation at our next Partnership meeting, ensuring continuity with and building on the initial data collection effort launched by Australia, France and Papua New Guinea.

## REDD+ Partnership document (3)

Immediate measures to be decided by Partners:

Development of guidelines and modalities for:

- The provision of secretariat services for the partnership by the FCPF FMT and UN-REDD Programme Secretariat, under oversight of the co-chairs on behalf of the partner countries (as described in Section 5);
- Determining any specific tasks (as described in section 5) that could be undertaken by particular countries and other organisations for the Partnership, if agreed by the Partnership.

.

## Further views from Partners

- New body?
- Consulting other institutions (e.g. GEF or OECD Development Cooperation Directorate)
- UN-REDD and FCPF as trustee
- Steering committee (AUS FRA PNG) to support proposal for the establishment of the voluntary database
- Budget request too high
- Contributions from Partners (e.g. analytical support)
