

## CONCEPT PAPER

<b>Title of activity</b>	National meeting on assessment of existing fund mechanisms under Cambodia Law (activity 2.3e)
<b>Outcome/output from Results Framework</b>	Output 2.3: Establishing REDD+ Fund mechanisms and Revenue sharing
<b>Anticipated timing</b>	9 <sup>th</sup> January 2014
<b>Duration</b>	0,5 Day

### Objective of activity:

To present and discuss findings from the assessment of existing fund mechanisms under Cambodia Law including international experiences with regards to the establishment of national Funds targeted to REDD+.

### Justification:

Output 2.3 of the UN-REDD National Programme include an activity to assess options in Cambodian Law for establishment of a REDD+ Fund. Following UNFCCC COP19 REDD+ countries are invited to identify national entities (e.g. a REDD+ Fund) to receive international incentives for result-based actions. This meeting will provide an opportunity to present and discuss the findings from an assessment of existing fund mechanism in Cambodian Law.

### Approach:

The consultancy team hired for the assessment of existing fund mechanisms under Cambodia Law will develop the agenda for the meeting, identify relevant stakeholders, relevant speakers and prepare a presentation to facilitate discussions in consultation with the REDD+ Taskforce Secretariat.

Besides key stakeholders in Cambodia including the REDD+ Taskforce members and other members from government and non-governmental organizations in total around 30 people, the meeting will seek to invite other actors working on national fund mechanism either in Cambodia or neighbouring countries. All REDD+ countries are likely to begin considerations on how to establish a national REDD+ Fund, and while the national context between countries are likely to be different, there will also be opportunities to learn from each other. The conducted assessment will be presented by the consultant. National and international experts will be invited to participate and make presentations in order to provide for a rich discussion.

### Key Outputs:

The outputs of the activity will be:

- Provide further input to the assessment of existing fund mechanisms under Cambodia Law and identify possible next steps for providing the necessary documentation for taking a decision on the establishment of a national Fund to receive international incentives for results-based actions.

The benefits of the activity will include:

- Increased awareness on the possibilities and requirements for a national REDD+ Fund.
