2.1 Output/activity delivery status

Outputs	Status	Comments
A report on national and international mechanisms that can be constituted as possible financing instruments for REDD+ in Chile.	CONAF, UNDP and UNEP have developed the ToRs for a team of experts/consortium for the implementation of TS. These ToRs include the work on analysis of national and international mechanisms that can be constituted as possible financing instruments for REDD + in Chile. This component will be under the technical responsibility and supervision of UNEP.	The publication of the ToRs could be in early August and the hiring process could be finished by October 2015.
A report on economic and cost analysis, by strategic mitigation option for REDD+ in the country.	As described above, CONAF, UNDP and UNEP have developed the ToRs for a team of experts/consortium for the implementation of TS. This includes the ToRs for an economic and cost analysis by strategic mitigation option for REDD in Chile	Idem above.

Summary:

We call the attention that at the time this report is being written, ROLAC has not received the corresponding sub-allotment. As a temporary measure, we have agreed with UNDP that this agency will cover UNEP portion of costs until UNEP has funds available.

Independently of the above, UNEP activities are on track to deliver expected results within the timeframe and budget as agreed in the ICA.
