Draft Agenda

Developing an Indicator Set and Data Collection Tools for the Participatory Governance Assessment for REDD+ in Vietnam

Da Lat, Lam Dong 16-17 April 2013

Objectives:

At the end of the workshop, participants will

- have developed common understanding on the main elements of and the main step for developing indicators (based on the prioritized issues)

- be aware of key considerations for data collection

- are aware of general considerations when later on deciding on the data collection methodologies relevant for the PGA

- have explored possible data sources, and

- have developed a rough draft framework and the indicator set building on prioritized governance issues agreed in Da Lat in March 2013

Expected outputs:

1. A draft framework for assessment of forest governance in Lam Dong province, focusing on maximum two priorities as highlighted in the PGA workshop in March 2013, and the related tools for data collection, and

2. Tentative plan for next steps
