Quiz
REDD+ under the UNFCCC

REDD+ Academy

Paro

12th October 2015

1. The objective of the United Nations Framework Convention on Climate Change is to:

a) Stop forest fires

b) Stabilize concentrations of greenhouse gases in the atmosphere

c) Stabilize concentrations of greenhouse gases in the oceans

d) Make all people on Earth aware of climate change

2. Meetings between countries under the UNFCCC are known as:

a) A Big Party

b) Meeting of the Parties

c) Conference of the Parties

d) Party All Night

TRUE OR FALSE?

Documents produced after UNFCCC Conferences of the Parties are called 'Decisions'.

REDD+ stands for…

a) Reducing Emissions from Dams and Deluges, plus ensuring less flooding from climate change

b) Removal of Eagles from Dilapidated Dzongs, plus eating them after cooking over a fire made of pine wood

c) Reducing Emissions from Dragons and Dinosaurs, plus finding more fossils for science

d) Reducing Emissions from Deforestation and forest Degradation, plus forest conservation, sustainable management and enhancement

e) Reminding Elephants to Declare their Diamonds, plus ensuring that they also remember in the future

5. Select the REDD+ activities

|			
Reducing emissions from deforestation	Increasing forest inventory resources	Strengthening protected areas	Reducing emissions from forest degradation
Remote sensing and GIS for forest management	Conservation of forest carbon stocks	National strategy and/or action plan	Sustainable management of forests
Safeguards information system	Stakeholder engagement	Enhancement of forest carbon stocks	Forest reference emission level

6. Select the design elements of REDD+

Free, Prior and Informed Consent	Cross-sectoral coordination	National forest monitoring system
National REDD+ Fund	Safeguards information system	Policies and measures
National strategy and/or action plan	Law on REDD+	Forest reference emission level

7. TRUE OR FALSE

- Following a step-wise approach, REDD+ should be implemented in five phases

8. TRUE OR FALSE

Implementing REDD+ should involve only the forestry sector

9. The scope of REDD+ refers to…

a) The area where REDD+ will be implemented

b) Which carbon pools to include

c) Which REDD+ activities will be implemented

d) Which drivers to address

e) Which stakeholders will be involved

10. TRUE OR FALSE

The scale of REDD+ refers to the number of government agencies involved

ANSWERS

1. The objective of the United Nations Framework Convention on Climate Change is to:

a) Stop forest fires

b) Stabilize concentrations of greenhouse gases in the atmosphere

c) Stabilize concentrations of greenhouse gases in the oceans

d) Make all people on Earth aware of climate change

2. Meetings between countries under the UNFCCC are known as:

a) A Big Party

b) Meeting of the Parties

c) Conference of the Parties

d) Party All Night

TRUE OR FALSE

Documents produced after UNFCCC Conferences of the Parties are called 'Decisions'.

TRUE

REDD+ stands for…

a) Reducing Emissions from Dams and Deluges, plus ensuring less flooding from climate change

b) Removal of Eagles from Dilapidated Dzongs, plus eating them after cooking over a fire made of pine wood

c) Reducing Emissions from Dragons and Dinosaurs, plus finding more fossils for science

d) Reducing Emissions from Deforestation and forest Degradation, plus forest conservation, sustainable management and enhancement

e) Reminding Elephants to Declare their Diamonds, plus ensuring that they also remember in the future

5. Select the REDD+ activities

Reducing emissions from deforestation	Increasing forest inventory resources	Strengthening protected areas	Reducing emissions from forest degradation
Remote sensing and GIS for forest management	Conservation of forest carbon stocks	National strategy and/or action plan	Sustainable management of forests
Safeguards information system	Stakeholder engagement	Enhancement of forest carbon stocks	Forest reference emission level

6. Select the design elements of REDD+

Free, Prior and Informed Consent	Cross-sectoral coordination	National forest monitoring system
National REDD+ Fund	Safeguards information system	Policies and measures
National strategy and/or action plan	Law on REDD+	Forest reference emission level

7. TRUE OR FALSE

- Following a step-wise approach, REDD+ should be implemented in five phases

FALSE

8. TRUE OR FALSE

Implementing REDD+ should involve only the forestry sector

FALSE

9. The scope of REDD+ refers to…

a) The area where REDD+ will be implemented

b) Which carbon pools to include

c) Which REDD+ activities will be implemented

d) Which drivers to address

e) Which stakeholders will be involved

10. TRUE OR FALSE

The scale of REDD+ refers to the number of government agencies involved

FALSE
