

## **Cambodia**

### **1. What is the current status of IP participation with UN-REDD programme activities in your country currently?**

- Activities that have been carried out to include IP
  - REDD+ road map consultation
  - Civil Society & IP engagement workshop
  - Developed the criteria for IP selection
- Representative mechanisms that are currently being used to support IP participation in REDD+ ?
  - Selecting of IP representative
  - Pre-meeting on the selection IP (September)
  - Conduct selection workshop (September)
- What planned activities are you aware of that relate to the implementation of safeguards in your country ?
  - Under the progress to develop safeguard
- Have plans to include IP in these activities been developed?
  - National IP representative will be participated all activities of National REDD+ Programme implementation
  - One selected IP representative will be participated in Programme Executive Board (PEB) and REDD+ consultation group

### **2. What is the current capacity building of IP to full and effectively participate in UN-REDD programme activities in your country?**

- Do IP have the capacity to fully understand and participate in discussions on REDD+ in your country at present?
  - Not yet fully on REDD+ concept and they have knowledge on community forestry and CPA and IP community through capacity building by government and NGO partners
- Do IP have the capacity and resources to consult effectively amongst themselves in order to present their collective views and concerns to decision-makers?
  - Capacity limited specially most of them are illiterate (IP have been participated in IP community, Community Forestry and CPA establishment)
- How direct is the representation of the local perspective of IP at the national level
  - They have opportunity to participate in meeting and workshop but they are lacked ability to express their voice
- What resources that could support the participants of IP?
  - Currently, We have sourced from UN-REDD national programme funds and CSO
