 - Started recruitment of the Programme Management

Status of NPs in implementation

- Consolidated Semi-annual report and country updates for Bolivia, DRC, Indonesia, Panama, Tanzania, Vietnam, and Zambia provided in doc UNREDD/PB7/2011/5
- Status and Highlights:
- DRC:
 - Intensive capacity building activities: REDD+ University, provincial workshops
 - Piloting REDD+ activities at provincial level
 - National workshop on REDD+ benefit sharing conducted
 - Completed two studies focusing on the political economy, good governance and preventing corruption with REDD+

Status of NPs in implementation

- DRC:
 - National Social and Environmental Standards developed in a participatory manner
 - Training for government and civil society on NFI (DRC) and satellite forest monitoring systems (Brazil)
 - Design of web portal on information monitoring and MRV
 - Study on the drivers of deforestation finalized in June 2011 and stakeholder consultation on the report undertaken

Status of NPs in implementation

- Indonesia:

- Development of FPIC Policy Recommendation in collaboration with the National Forestry Council (DKN) and civil society.
- Facilitated and provided technical support to develop the Forestry Development Roadmap under the Ministry of Forestry
- Launched a report on: UN recommendation on Indonesia Action Plan for information, monitoring and MRV
- Provincial multi-stakeholder working group for REDD+ readiness in Central Sulawesi, the pilot province (Governor Decree on the establishment of the working group issued)
- Capacity building and awareness initiatives including dissemination of results of COP 16 /Cancun and capacity building for journalists

Status of NPs in implementation

- **Tanzania:**

- The National REDD Task Force (NRTF) released a draft national REDD+ strategy in January 2011
- Capacity building activities developed: Training courses for Government staff , regional training workshop in cooperation with FCPF/World Bank, remote sensing training workshops
- Ministry of Natural Resources and Tourism with support from the UN-REDD Programme, conducted stakeholder consultations on REDD+

- **Viet Nam:**

- Establishment of a sub-technical working group on benefit distribution systems as part of Viet Nam's National REDD Network

Status of NPs in implementation

- Viet Nam:
 - Cross-ministerial Steering Committee on REDD+ established with participation from key ministries and government agencies
 - National REDD+ Office was established and Director appointed
 - Review of methodologies for establishing RELs/RLs and RS and selection of a suitable method for national circumstances and draft MRV framework produced
 - Implemented recommendations from the initial benefit distribution system (BDS) analysis including: design of a framework for the assessment of R-factors, local consultations on BDS and a piloting exercise for local decision making, including the BDS policy recommendations from the 2010 study report
 - Lessons learned on FPIC, PCM, BDS, and the National REDD+ Programme, produced

Status of NPs in implementation

- **Zambia:**

- Coordination and joint planning efforts with other initiatives (Integrated land-use assessment program)
- Local stakeholder training and capacity building activities
- Designing pilot portal for information monitoring and MRV
- Methodological framework document for RL and RELs developed

To be considered at PB7

- **Nigeria Full National Programme**
 - Draft Nigeria National Programme presented at PB 6 for information
 - Formal submission in March 2011
 - Independent reviews carried out in March 2011
 - Written Policy Board comments received in April 2011 and forward it to the Government and UN-REDD support team
- Submission form /Revised NDP / validation meeting minutes / response matrix on website and workspace since September 29

Following on PB recommendations

- New result-based NP reporting templates used for this reporting period semiannual and annual reports
- Submission forms signed after the approval of the Policy Board report, and including the agreed recommendations from the Board
- Signed NPDs, submission forms and response matrixes posted on the workspace

Some common lessons

- Partner countries supported by UN-REDD are achieving concrete milestones towards completing the REDD+ readiness phase
- Scoping and formulation phase is taking longer than anticipated and has required significant upfront support from the Global Programme :
 - Stakeholder engagement and consultation processes
 - Technical back-stopping for drafting the NPDs
- Inception phase can also take longer than anticipated
 - Setting up implementation arrangements
 - Launching the inception workshop
- NP s moving forward into implementation but still report low expenditures

Future activities by the Secretariat

- Review the NP cycle based on experiences learned from implementation
- Include reporting on GP support to NPs in reporting templates
- Incorporate UN-REDD guidelines and SEPC in National Programme Handbook and link to monitoring framework
- Consider additional and alternative channels for reporting back to the Policy Board and receive interactive feedback during implementation:
 - Board members can provide written comments after the PB meeting to be forwarded by the Board
 - One extra day for PB 8/Two country panels at PB 8
