

Project Highlights

Boundary demarcation in Preah Vihear Protected Forest

Free, Prior and Informed Consent (FPIC) in Seima Protected Forest

Training on Basic Remote Sensing to FA officials

Ground Truth training on satellite image interpretation to FiA officials

CAM-REDD is one of supporting frameworks (e.g. UN-REDD, FCPF) to implement the multi-year work plan of the Cambodia REDD+ Taskforce. CAM-REDD was officially endorsed by the authorities representing the Royal Government of Cambodia, Forestry Administration, and Government of Japan, Japan International Cooperation Agency (JICA) on May 27, 2011.

CAM-REDD has been assisting various initiatives in the REDD+ readiness stage of multi-year work plan described in current four outcomes.

Goal: Cambodia to become ready for REDD+

Objective: Capacity building through implementing the multi-year work plan of Cambodia National REDD+ Task Force.

Beneficiaries: Direct beneficiary - Cambodia REDD+ Task Force and its stakeholders.

Lessons Learned: Country-driven process indispensable for National REDD+ Readiness development.

Challenges: Broad range of capacity building within limited human/time/financial resources.

Principle Roles of Major Supporting Frameworks

Outcome	Major Supporting Frameworks						
	UN-REDD	CAM-REDD	FCPF	FAO's TCP-NFI	USAID	Embassy of Japan	Potential REDD Projects in Community/Protected Forests
Outcome 1: Institutional Arrangements	√√	√	√√		√		
Outcome 2: Strategies/Policies	√√	√√	√√		√		
Outcome 3: Demonstration Activities	√	√√	√		√	√√	√√
Outcome 4: MRV/REL/ GHG Inventory	√√	√√	√	√√	√	√√	√
