

Define safeguard goals and scope

Goals of the country approach to safeguards

= what, if anything, does the country want to achieve with its REDD+ safeguards beyond UNFCCC requirements for REDD+?

- E.g. Other safeguard requirements, such as FCPF requirement

Scope of the country approach to safeguards

= what activities and measures will be covered by the chosen safeguards?

- E.g. Same safeguard policies throughout the land-use sector

Interactive exercise: Defining safeguard goals and scope

- Who should be involved in defining the goals and scope of the country approach to safeguards?
- What might be included in the goals/scope of your country's safeguards approach?
- What are the potential advantages and disadvantages of broadening the goals/scope of the safeguards approach (beyond UNFCCC requirements)?
