Dear Mr Resham Dangi,

With reference to your letter received on 5 June 2014, we thank you for your request for targeted support from the UN-REDD Programme for supporting the design and implementation of Nepal's national REDD+ Strategy.

We are pleased to inform that the UN-REDD Programme, through the three participating UN agencies, will provide support for a total amount of US\$ 759,830.

It is noted that the support will build on the initial targeted support to Nepal and refers to activities that will support the following results:

- National REDD+ Strategy options identified which are effective in addressing drivers and causes of deforestation and forest degradation through a cross-sectoral approach;
- Potential options for effective, equitable, and transparent management of REDD+ finance assessed;
- Methodology to determine the national value of forest ecosystem services and an experimental ecosystems accounts mechanism for forests developed;
- Approaches for monitoring the implementation and performance of REDD+ Policies and Measures using proxy ; and
- Policies, Laws, Regulations (PLR) and institutions in the context of those required for REDD+ implementation analysed, and approaches to fill the identified gaps identified.

Support is also provided to the coordination of these activities under the targeted support mechanism.
