

Objectives & Clarifications

Mihaela Secrieru

Training Workshop on the National System for the GHG Inventory

25-28 January 2011 FAO Headquarters, Rome, Italy

Coalition for Rainforest Nations

UN-REDD
PROGRAMME

giz

Objectives of the workshop

- 
- Present current legal status of GHG Inventory for non-Annex I Parties and its relevance for REDD+ and NAMAs
- 
- Provide information and training on establishing and developing the national system for the GHG Inventory
- 
- Develop common face-to-face opportunities for learning and sharing of experiences and knowledge

Objectives of the workshop

- 
- **Identify** the **needs** of the Parties in order to plan and coordinate further actions on capacity building, with the aim to:
 - **Promote** the **establishment** of a **national system** for the GHG inventory where not yet in place;
 - **Strengthen** the **national system** for the GHG inventory where already existing.
 - **Provide general recommendations**
- 
- 

Content of the workshop

- Setting the context
- Overview on capacity building activities of FAO, GIZ, CfRN, vTI, EPA and UNFCCC
- 2 General presentations on the National System (by UNFCCC) and the GHG Inventory (by IPCC)
- 7 Lessons on specific arguments related to the development of the national system

Content of the workshop

- Presentations by participant countries on their national inventory systems
- Questionnaire compilation and analysis
- Meetings between country delegates and implementing agencies (FAO, GIZ, CfRN, vTI, EPA) planned for Friday, in order to further assess current status and needs of countries, and plan future capacity building activities for the GHG Inventory.

Agenda Tuesday
