

**TARGETED SUPPORT REQUEST - ECUADOR**  
**Development and Implementation of a Monitoring, Measuring, Reporting and Verifying Process for REDD+ in Ecuador**

OUTCOME	OUTPUT	ACTIVITY	CONSULTANCIES	CONTRACTS	TRAVELS	WORKSHOPS	EQUIPMENT AND MATERIAL	TOTAL / OUTCOME
1. Monitoring and Measuring, Reporting and Verifying process for REDD+ activities at national level designed and implemented	1.1 To design and implement a Measuring, Reporting and Verifying Process for emission reductions achieved through the implementation of REDD+ activities at national level, in the context of REDD+ results based finance	<p>1.1.1 Design a monitoring MRV process for the National REDD+ Programme, in the context of results based payments for emission reductions at national level</p> <p>1.1.2 Implementation of a MRV proces, for the National REDD+ Programme, and follow up independent verification processes in the context of results based payments for emission reductions at national level from a wide variety of sources (UNFCCC, Green Climate Fund, REM, others)</p> <p>1.1.3. Follow up and verification of the Forest Reference Emissions Level for deforestation for the national level to be submitted to the UNFCCC for the technical assessment in the in the context of results based payments for emission reductions at national level</p> <p>1.1.4 Coordination with the Undersecretariat of Natural Heritage (Naturak Heritage Monitoring System) to access to data and information that allows the development and update of FRELS, REDD+ MRV process implementation as well as the development of GHGs inventories for the LULUCF and Agricultura sectors, and the provision of information for safeguards e, f and g in the Safeguards Information System.</p>	5000,00	47000,00	2000,00	1000,00	7600,00	<b>62600,00</b>
	1.2. To design and implementation of REDD+ monitoring protocols	<p>1.2.1 Design a monitoring protocol to identify the performance of measures and local actions to be funded by the National REDD+ Programme, in order to verify their effective contribution to tackling drivers of deforestation</p> <p>1.2.2 Implement a monitoring protocol to identify the performance of measures and local actions to be funded by the National REDD+ Programme, in order to verify their effective contribution to tackling drivers of deforestation, to provide information for the benefit sharing system and in coordination with the national REDD+ registry</p>	5000,00	21000,00		1000,00	1200,00	<b>28200,00</b>
2. Green Houses Gases Inventory System (LULUCF and Agriculture sectors) designed and implemented	2.1. Development of the GHG Inventory System, including the 2012 GHG Inventory and review of the GHG inventories for the years 1990, 1996, 2000, 2006 (LULUCF and Agriculture sectors)	<p>2.1.1. Development and validation of the 2012 GHG Inventory for the Land Use, Land Use Change and Forestry and Agriculture sectors, to be included in the Ciennial Update Report Bienal</p> <p>2.1.2. Update and review of the GHG inventories for the years 1990, 1996, 2000, 2006 for the Land Use, Land Use Change and Forestry and Agriculture sectors, as an update of the Second National Communication to be included in the BUR</p> <p>2.1.3. Specialized advisory for the development and validation of the 2012 GHG Inventory - and review and validation of the the GHG inventories for the years 1990, 1996, 2000, 2006 - for the Land Use, Land Use Change and Forestry and Agriculture sectors</p>	36000,00	37000,00			4400,00	<b>77400,00</b>

	2.2. Development of a software-like tool for the GHG Inventories System as a contribution for Ecuador's Biennial Update Report (BUR) and Third National Communication	2.2.1. Development and implementation of a software-like tool for the GHG Inventories System for the LULUCF and Agriculture sectors		48000,00			9600,00	57600,00
<b>TARGETED SUPPORT TOTAL</b>			<b>46000,00</b>	<b>153000,00</b>	<b>2000,00</b>	<b>2000,00</b>	<b>22800,00</b>	<b>225800,00</b>
