

OUTPUTS	ACTIVITIES	Consultants	Contracts	Travel	Training	Expendable Procurement	Non Expendable Procurement
<p>Producto 1.1 :To implement a Measuring, Reporting and Verifying Process for emission reductions achieved through the implementation of REDD+ activities at national level, in the context of REDD+ results based finance</p>	<p>Actividad 1.1.1 To complete the design of a monitoring and MRV process for the National REDD+ Programme, in the context of results based payments for emission reductions at national level</p>	91.700,00	9.000,00	8.000,00	36.700,00	35.000,00	41.000,00
	<p>Actividad 1.1.2 Implementation of a MRV process, for the National REDD+ Action Plan, and follow up independant verification processes in the context of results based payments for emission reductions at national level from a wide variety of sources (UNFCCC, Green CLimate Fund, others)</p>						
	<p>Actividad 1.1.3 Follow up the verification process of the National Forest Reference Emissions Level for deforestation submitted to the UNFCCC and elaboration of the technical annex to be included in the Biennial Update Report</p>						
	<p>Actividad 1.1.4: Coordination and institutional arrangements to acces to data and information that allows the development and update of FRELs, REDD+ MRV process implementation as well as the development of GHGs inventories for the LULUCF and Agricultura sectors, and the provision of information for safeguards e, f and g in the Safeguards Information System.</p>						
<p>Producto 1.2: To design and implement the monitoring protocols to identify the performance of measures and local actions to be funded by the National REDD+ Action Plan</p>	<p>Actividad 1.2.1: Design a monitoring protocol to identify the performance of measures and local actions to be funded by the National REDD+ Action Plan, in order to verify their effective contribution to tackling drivers of deforestation</p>	102.200,00		6.000,00	33.000,00	10.000,00	1.000,00
	<p>Actividad 1.2.2: Implement a monitoring protocol for the implementation mechanisms, as part of monitoring the performance of measures and local actions to be funded by the National REDD+ Action Plan in coordination with the Management System of Measures and Actions REDD+</p>
