

# Tanzania MRV meeting

---

# Objectives

- Share experiences and results from actual projects in Tanzania.
- Harmonize ongoing initiatives with their common goal to support Tanzania in its decision making and implementation process of a Monitoring, Reporting and Verification (MRV) for REDD.
- Coordinate actions to make Tanzania a reference case to capitalize experiences for other REDD countries.

# Expected outputs

- Improve linkages among the ongoing initiatives for methodological developments to support Tanzania towards a MRV set-up, implementation and national institutionalization, with a clear delineation of actual work plans and focus of the different players and limits for each of them;
- Clear work plan and work sharing/division among the partners involved;
- Recommendations on how to coordinate the different ongoing initiatives to better integrate among the different partners;
- Agreement on how to communicate and disseminate results among the actors during the process.
