

#### 4. Discussion Forum

Discussion forums allow members to post queries. The forums are not facilitated (i.e. messages do not go through a facilitator before posting), although this option exists. All posts are final. Guiding headers for the forums include regional/national topics; events; operationalizing REDD; research; and a special “test users” for conversations on the workspace.

Click on the “Help” and “Rules” button for additional details.

The discussion forum can be viewed by and contributed to by all users.

*To start a new discussion, read or contribute to an existing one*
